About Us

Welcome to our laser cutting and profile cutting business profile!

At POOJA INDUSTRIES, we are at the fore-front of the cutting-edge technology that empowers precision and creativity – Laser, Profile & Plasma Cutting. We are a dedicated team of experts passionate about delivering top-notch services to meet the diverse needs of our valued clients.

Who We Are:

We are a leading laser, profile & Plasma cutting service provider with a strong commitment to excellence. Our company was founded on the principles of innovation, quality, and customer satisfaction. Over the years, we have built a solid reputation for delivering exceptional results and unmatched craftsmanship.

1] Laser Cutting: With state-of-the-art laser cutting machinery, we offer high-precision cutting solutions across various materials, including metals. Our advanced technology ensures clean, accurate, and intricate cuts, enabling us to tackle projects of any complexity.

2] Profile & Plasma Cutting: At POOJA INDUSTRIES, we specialize in profile cutting services, providing clients with custom shapes and designs according to their unique specifications. Whether it's industrial parts, signage, art pieces, or architectural elements, our skilled team can bring your ideas to life with precision and attention to detail.

Our vision

Our vision for the laser and profile cutting service is to become a cutting-edge and industry-leading provider of precision cutting solutions. We aim to offer a comprehensive range of laser and profile cutting services to cater to the diverse needs of our customers across various sectors. By leveraging the latest advancements in laser technology and cutting equipment, we strive to deliver unmatched accuracy, efficiency, and speed in our cutting processes.

At the heart of our vision is a commitment to customer satisfaction, where we prioritize understanding our clients' unique requirements and providing tailored solutions that exceed their expectations. We envision building long-term partnerships with our customers, based on trust, reliability, and exceptional service.

Why POOJA INDUSTRIES...?

At Pooja Industries, we take pride in being a leading provider of laser cutting and profile cutting services. With years of experience and cutting-edge technology, we offer a range of solutions that cater to diverse industries and businesses. Here are some key points to include in your business catalog to highlight the benefits of choosing Pooja Industries for laser cutting and profile cutting:

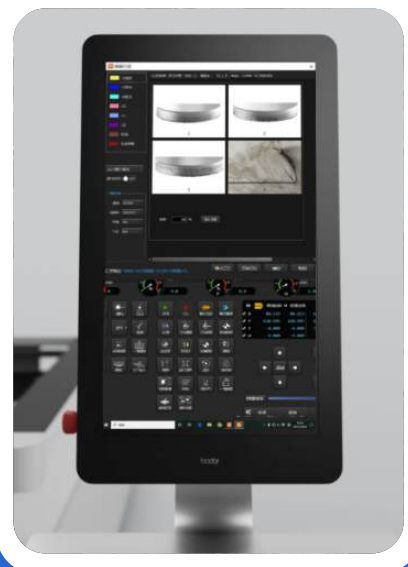

State-of-the-Art Technology: Pooja Industries is equipped with the latest laser cutting and profile cutting machines, ensuring precision, speed, and efficiency in every project. Our technology investments enable us to handle complex designs and deliver flawless results.

Skilled and Experienced Team: Our team comprises highly skilled and experienced technicians and operators who possess in-depth knowledge of laser cutting techniques and profile cutting processes. Their expertise ensures the highest quality standards and attention to detail in every project.

Versatility and Customization: Whether you need intricate designs or large-scale production, Pooja Industries has the capability to handle a wide range of materials and thicknesses. We offer customization options to tailor our services to your specific needs.

Fast Turnaround Time: We understand the importance of timely project completion. With our efficient processes and streamlined workflow, we deliver on our commitments, ensuring you receive your orders within the agreed time frame.

Cost-Effectiveness: Our laser cutting and profile cutting services are competitively priced, making them cost-effective for both small and

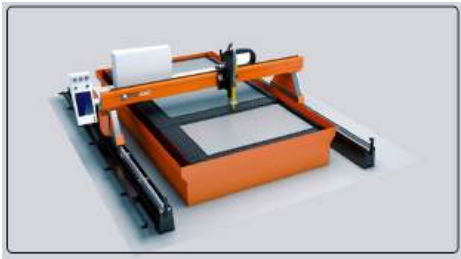

LASER CNC PROFILE CUTTING & BENDING

With the latest cutting technology, Pooja industries Is able to deliver an excellent laser cutting for metal with our state of the art plant.

We ensure that you can take full advantage of the Laser cutting process including .

- Faster cutting and reduced turn-around times.
- Ability to handle a broad spectrum of materials
- Including various grades of mild steel, stainless steel, aluminum, copper, brass, GI and various Non metallic of thickness 0.5 to 20MM
- Excellent versatility

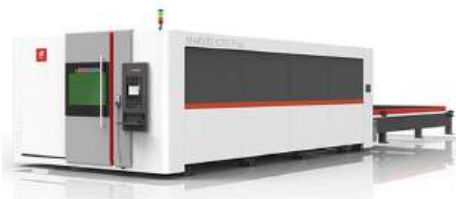

CNC PROFILE SPECIFICATION

BED SIZE - 2500X6500 METER

CUTTING CAPACITY

MILD STEEL - 0.5 TO 200MM

6KW Laser Cutting

Bed Size - 2500X6500 METER (Double Bed)

Cutting Capacity

Mild Steel - 0.5 TO 25MM

Stainless stell - 0.5 TO 20MM

Aluminium - 0.5 TO 12MM

3KW Laser Cutting Machine (Bodor)

Bed size - 1500x3000

Mild steel - 0.5 to 16MM

Stainless stell - 0.5 to 12MM

Aluminium - 0.5 to 6MM

Bending Machine 175-TON

DELEM DA53T 2D Graphical CNC Control Unit
ACCURL® BGA-1 for X=600mm X -Axis and Manual R,Z1,Z2- Axis
OEM Embedded Lasersafe Systems LZS-2 Block Laser
Sliding Front Arms with full length linear guide
CE Norms with Two sides door-type safety guard and rear safety guard with rear door

3KW Laser Cutting

CAPACITY – 3 KW
BED SIZE – 1500X7000 MM
CUTTING CAPACITY
Mild steel – 0.5 To 20MM
Stainless Steel – 0.5 – 10MM
CU-0.5 To-5 MM
BR-0.5 TO 6 MM
ALUMINIUM-0.5 To 8 MM
